

15. KOREA. Communists again demonstrate considerable logistical ability:  
Provisions "to last until the middle of April" are reported by an  
unidentified Chinese Communist artillery regimental commander on  
3 February. This food stockpile included 234,000 pounds of grain and  
15,665 pounds of other foodstuffs. (SUEDE  543, 3 Feb 52)

Comment: Although the proximity of this regiment to the front line  
is unknown, the accumulation of over a two-month food supply by a  
regimental-size unit demonstrates a considerable degree of Communist  
logistical success.

This level of supply is somewhat unusual in any combat unit other  
than one engaged in a static rear area defensive role.
